

The CSI Chapter, LNMIIT organized a two-day lecture series on GIT and Github on 8<sup>th</sup> and 9<sup>th</sup> February, 2016. The lecture focused on introducing the first year students with open source community and making them familiar with the distributed version control system, GIT which becomes mandatory when you step into the open source society.

It was organised by Divya Biyani, Shivansh Bajaj, Ayush Agrawal, Mudit Sharma and Sonali Gupta. Conducted by Shivansh Bajaj, the session being completely hands-on was interesting and fun for all. Students were taught about clone, push, pull, fork, etc. and made their first commits on Github and resolved conflicts. Around 100 students were benefited by the session.
