Dear Dr. Mohan K. Kadalbajoo,

I am writing this email with regard to your research paper titled "**Parameter Free Hybrid Numerical Method for Solving Modified Burgers Equations on a Nonuniform Mesh**". I have read your research online and found its conclusions remarkable. This significant work has the potential to inspire fellow researchers and scientists working in the same domain. In fact, I have also shared the findings and conclusion of your research paper with my colleagues.

I am influenced by your research aptitude and a profound understanding of your field of study. Pursuing your research, I found that it matches the scope of our research journal, and I would like to welcome you to associate with us. Our editorial board, along with management, and I have agreed to recognize you as **honorary Rosalind Member of London Journals Press**. Your Membership **ID#HA81436** is valid for the quarter of this year.

As you might already know, London Journals Press (UK) is an internationally acclaimed publication organisation and an accreditation authority for research standards. We follow COPE and Research Councils United Kingdom standards and are associated with researchers in all the leading disciplines like computer science, engineering, science, management, medical science, social science, and humanities.

Your work shows your research aptitude, a rational approach, and a profound understanding of your field of study. Thus, I would like to encourage you to publish your next research paper in our international, peer-reviewed, refereed journal. You are requested to confirm your review slot before the 15th of the upcoming month for the next issue.

We follow a comprehensive and extensive peer review process, which is a time-consuming procedure. Following the convention, your paper will be reviewed on a priority basis since you belong to the Council of Rosalind Members.

You can read more about London Journals Press, our core ethics, and our values on the website, journalspress.com

I look forward to hearing from you soon and a successful academic relationship in the future.

Regards,

Dr. Libby Humphries
